

## KAB 525

The KAB 525 mechanical suspension seat is suited best for mining and construction applications such as excavators, graders, loaders as well as suiting some material handling and marine applications.

The 525 is a popular seat for these applications because its mid back sized backrest provides comfort and support while still allowing the user to look rearward.

It comes standard with the manual weight adjust control, back recline, adjustable lumbar and height riser and tilt functions. With 60mm seat height and tilt adjustment to suit each user.
