

## Bostrom Base

The Bostrom Base air suspension seat provides an entry level seat utilising many of the features as the Premium variant. Designed to provide great comfort for the professional truck and bus driver. Suitable for most European cab overs and flat floored American conventional cabs with aid of a height riser box.

Effective working capacity up to 150Kg, integrated seatbelt and headrest, with multiple adjustments to suit any operator including height and back angle adjustment, seat length and angle and integrated air lumbar support.
