

Stratos LTSS 3000

The Stratos LTSS 3000 is best suited for both driver and passenger seats within light commercial vehicles and 4WDs such as Landcruiser, Patrol, Hilux, Isuzu, Navara and more. It's low-profile mechanical design considerably reduces harmful vibrations by up to 70% in small cabin vehicles.

It comes standard with weight adjustment, back recline, air lumbar and adjustable headrest. It will provide both driver and passenger with increased comfort and support, reducing fatigue over long trips and even the toughest 4WD conditions.

There is also a static, base variant available, the 3000 Compact. It comes with the same features as the LTSS 3000 expect it does not have the low-profile suspension.
